The student-run newspaper of Thiel College in Greenville, PA

Rice’s old team’s colors, the
recent Ray Rice controversy,
and the ongoing campaign againstISIS have come together to bring
forth a new ad from CoverGirl.

According to Buzz:60, "So, @COVERGIRL is encouraging the NFL to take
action for you to use the product.
This response to Good
bowing's model with the black
eye has gone viral with the
ad used by protesters to stir awareness on the Ray Rice issue.

The ad used by protesters to stir awareness on the Ray Rice issue.

"I always knew that combining spoken
or written text with appropriate
visuals is an important part of communication today." — Katie Allgeier

Protesters manipulated a Change.org petition.

Protesters gathered to formally dedicate the
Pedas Communication Center.

"I’d like to be more involved with
the community as a whole. I’d like to
be more of a part of just the office, like educating [about] different health things," she remarked.

"At this point I’m still learning
what is available, but I’d like it to be
out there for people. I’d like kids to
come in and ask me questions," said
Cianci, who has been working for 12 years
as a school nurse.

"I’d like to be able to be involved with some other programs. I just have to get my feet wet," she explained.

"I’m just getting my feet wet and don’t
really know what I’m going to like to be involved and maybe start some other programs."

"I’m excited to be here. I’m looking forward to the new school year," said Cianci.

"As spoken by VanAken.

BLY HALL MOVIE PRODUCTIONS PRESENTS...

Guardians of the Galaxy (date to be announced):
Star Lord, who formerly resided on earth, was taken up into space at a young age by Yondu, the leader of a group of space scavengers known as the Ravagers, following the sudden death of his mother. Many years later, he has decided to abandon the Ravagers to track down an ancient orb that is also being sought after by the evil Ronan. Along the journey, Star Lord joins forces with Gamora, Rocket, Groot, and Drax. The group, after undergoing several dangerous adventures, finally reaches the orb and transports it to a being known as “the Collector”. The Collector reveals that the orb holds an infinity gem, a rare gem with powers that could potentially be very dangerous if the gem falls in the hands of the wrong person. After Ronan steals the gem, Star Lord and his crew must race through the galaxy in order to save their people. Stop by Bly Hall to check out this exciting comic book space adventure!

The Purge Anarchy (date to be announced):
If you saw the first Purge, you will not want to miss this thrilling sequel. The annual purge, a 12-hour period in which all crime is legal, including murder, is about to commence. An unlucky couple finds themselves in a terrifying situation when their car breaks down just outside of the city. As the commencement whistle sounds, they are left on the streets to fight for their survival. While running for their lives, the couple crosses a mother and daughter who ended up on the streets after their apartment building was raided by purgers and a police sergeant who is seeking revenge on a man who took his son’s life. The group joins forces to help fend off the purgers for the remainder of the evening.

Want to advertise your club or event?
Submit an ad or article!!!
Articles must be between 350-600 words. Publication is free for Thiel clubs and activities. If you give us information for your event (Who?, What?, When?, Where?, and how students can get involved), we can make the ad for you! Just give us the information 3 days before the submission date!
Articles, ads, and information can be sent to newspaper@thiel.edu

Global Club Meeting
October 2
Pedas 125, 5-6 p.m.
Be involved in the shaping of one of Thiel’s newest clubs!

Career Services is here for you.
For information about upcoming events, see pg. 5 and e-mail Martin Black.

Thiel Happenings
compiled by Liz Carlson, ecarlson@thiel.edu

Saturday, Oct. 18
Chi Omega Wish Bingo: 2-6 p.m., LHR
Come help the sisters of Chi Omega raise money for the Make-A-Wish Foundation and you could win awesome prizes! Tickets are $15 dollars at the door.
Play - The Madison Blitz: 8-10 p.m., Theater
Join the Theta players for this 24-hour play project in which plays are written, rehearsed, and performed in a single day. This event is a co-production with area community theaters. Performance is free and open to the public; donations gratefully accepted.

Monday, Oct. 20:

Jimmy Johnson’s oil painting "New York Skyline" will be on display at the Art Gallery at Thiel College until October 31.

Singer’s oil-based painting "Gossip" ends its display at Thiel today.

EVENTS

Page 3

The students have become very passionate about this event and enjoy working to make it something that is enjoyable. Dr. Currie Thompson, the head of the Dietrich Honors College, commented on the event saying, “There was great spirit in the air that morning and I am glad that we were able to have the cold weather to be sure that this important affair take place in such a smooth fashion. The students worked hard to be sure that it was done well. Overall, the event was perceived as a success.”

This event and cause is something that will grow up over the next year or two, and it is believed that it will become a tradition for the students to continue to support the cause in the future.

The Walk to End Alzheimer’s

Sharon, PA September 6, 2014 - The Gam¬ma Delta chapter of Kappa Sigma at Thiel College walked to end Alzheimer’s disease for the first time this year. This is an annual event that Kappa Sigma chapters across the country raise funds and participate in. This year, Sigma Kappa participated by heading out at 7 a.m. on Saturday to volunteer for set-up at the walk. This fabulous Sigma Kappa crew then walked to the Alzheimer’s Center with the help of our chapter advisor, Dr. Julie Katt, in the attempt to raise money for the number one cause to raise the most money with a grand total of $4,000.00 that will go to Alzheimer’s and Alzheimer’s research. The team had the opportunity to be photographed at the walk and received a sign which is only available to teams whose participants raise at least $100.00. The Sharon Walk to End Alzheimer’s raised a total of $26,664.88 with 23 teams. The Sigma Kappa chapter of Thiel College would like to thank all of our teams for helping the causes and goals. We are thankful to everyone who made this event a successful one. We would also like to extend our gratitude to Campus Life for their support and encouragement. We would like to thank everyone who joined our team or walked with us or supported the team in any way. We appreciate their support and we are thankful to all of them.

The Sigma Kappa chapter of Thiel College would like to thank all of our families for their support and encouragement. We are thankful to everyone who made this event a successful one. We would also like to extend our appreciation to all the participants for their support. Our mission is to raise funds and participate in this event to raise awareness for the disease and support the families affected by Alzheimer’s.

Sigma Kappa Fight to end Alzheimer’s

Flushing out Alzheimer’s

Greenville, PA October 20-24th, 2014 – The Kappa Foundation, through their charitable projects of Sigma Kappa Foundation, is supporting Alzheimer’s disease research – adev- er for the 25th year. The Sigma Kappa chapter at Thiel College is participating in the cause. The Sigma Kappa chapter at Thiel College is participating in the cause.

ISIS Becomes World Problem

“Is it different for me because at Keystone it was... more of an interest,” Juan Cole said. “I was kids all of the time... when I worked for Greenville (High School), you kind of knew families and kids... here you have a wider range of people you don’t know everybody, so it’s fun getting to know everybody.”

Cianci does not seem intimidated by the novelty of her station at Thiel. “I’m sure I’ll get to know people here,” she said. Cianci also remarked that she would be interested in following the footsteps of her father, Pam Dupre, in teaching a few classes at Thiel. “It would love to teach some classes,” she commented “I actually teach a first-aid class. I’m a CPR certified instructor, so I do first-aid too, and that’s probably something I am good for doing for some of the staff and coaches... it would be something I’d be interested in.”

The Student Health office can be found in the Howard Miller Student Center.

The Lives of RDs

Aikido Club

Aikido is a traditional Japanese martial art created by Morihei Ueshiba (O-Sensei) in the early 20th century. Aikido is based on the principle that non-violent defense is best achieved by blending with and releasing the energy of one’s attacker. O-Senshi, Aikido strives for the cultivation of a mental, physical, and respectful martial art. An aikido practitioner learns to work with that energy and to generate a new force field. Aikido practice is done in tandem with breathing and meditation.

"There are many reasons why many students, including exchange students, are interested in the club. "There are many reasons why students... physically, self-defense, and relaxation," Hindman said. "I especially like the fact that we are a pretty lenient group, but there are rules." Hindman believes that "a little respect can make a world of difference" at Thiel College.

Aikido class is offered on Tuesdays and Thursdays from 6:00-8:00 p.m. All students are welcome to stay for the full two hours, but beginners must come for the first hour. Interested students should arrive at least fifteen minutes early to help set up.

Pedas Center Dedicated

Both Dean Franken and Dr. VanAken touched on the thought that the Pedas Center "will benefit students, faculty, and staff."

Once the ceremony concluded with Dr. Pe- das' speech, the ribbon-cutting ceremony was performed. Dr. Pedas cut the ribbon, symbolizing the opening of the new center.

The Pedas Center is a 20,000 sq. ft. building with a 750 sq. ft. main room, two 200 sq. ft. rooms, a bookstore, television and radio stations, as well as conference rooms. The center is open from 8am to 9pm, which was located in Roth Hall during the construction, is now located within the new building.

Dr. Melissa Borgia (left) and Dr. Marie Courtemanche (right) are two new additions to the Thiel faculty. Dr. Courtemanche works in the political science department while Dr. Borgia is in the English department.

Dr. Marie Courtemanche is new to the political science department this semester. She is teaching several courses, including American Government, American Constitutional Law, State and Local Government. Originally from New Hampshire, she studied political science and economics at the University of New Hampshire. She went on to grad school at the State University of New York at Stony Brook, where she specialized in political psychology. Since graduating with her Ph.D. Marie has spent the past seven years teaching her passion to students. Prior to coming to Thiel, she taught at several other schools across the nation, including Maracaibo College in Ohio, Providence College in Rhode Island, Texas Christian University, and the State University of New York at Stony Brook. When asked what brought her to Thiel College, Dr. Courtemanche responded, “I was very appreciative of the fact that a large portion of the students are first generation college students, something that I can identify with.” She also added that she is impressed by the Thiel College campus atmosphere, liberal arts education, and smaller class sizes.

After spending a few weeks at school, Dr. Courtemanche has had plenty of time to get associated with the school. “I like the familiarity with the atmosphere. ‘The student body is engaging and extremely friendly and warm. Another thing that I really like about the campus is the size of the students. They provide the environment in which I can interact with the students in a more meaningful way,” she said.

During her next few semesters here at Thiel, Dr. Courtemanche plans to continue creating new courses that are along the lines of what she studied in grad school: political psychology and public opinion. “One new course on mass media next semester ‘I really hope to get the students more interested and engaged in the material,’ she added.”

Outside of the classroom, Dr. Courtemanche can be found in the kitchen cooking and baking. She particularly enjoys trying new and exotic foods, which probably stems from her love of travel. In fact, she has been to every continent except Asia. She enjoys new challenges like the time she backpacked herself across South and Central America for 12 months. Her new position here at Thiel presents a new type of challenge for Dr. Courtemanche, one that she looks forward to.

Dr. Melissa Borgia is a new face in the English Department this semester. She is currently teaching two different sections of Introduction to Writing, Introduction to English Composition, as well as a class that attempts to get everyone involved in the planning of Thiel College. One of her biggest goals during her time here is to get students to develop personal relationships with people as well as to communicate and be more aware of their dying cultures. She also wants to get students to develop their own cultural projects that she is very good at since she is fluent in Spanish. She also earned her doctorate at Indiana University of Pennsy- lvincia where she studied English composition and teaching English to speakers of other languages. Prior to Thiel, Dr. Borgia has also taught at other schools and universities, including Penn State Beaver at Erie, Elyria Business Center, and several private schools. She has also taught a Saturday preschool on the reservation. For her Master’s degree, she studied bilingual education at Texas A&M University in the hometown of Erie, Pa. where she studied bilingual education and psychology.

**Why your favorite movie is terrible...**

By Mary Kate Dougherty, mdougherty@thiel.edu

The movie industry is a business that makes movies, I feel like I have made a career at it. However, I can’t help but think that the industry is full of a lot of bad movies. Some of these movies are so bad that I wonder why they were ever made. Here are some examples of movies that I would not recommend anyone watching.

**The Movie:**

*Terminator 2: Judgment Day*

*The Character Everyone Loves But No One Should Ever Watch Again*

*How can this movie be so terrible?*

*The Gray Spel*

*The Tipping Point*

*Misconceptions About Professors*

*Misconceptions About Professors*
I try to make it quite clear in this column that I am no expert of high fashion. I would rather wear a cardigan and jeans than pretty much anything. However, for the sake of the column I try to assume the role of friendly neighborhood fashionista, and I like to think that I pick up a few things here and there regarding fashion trends and tricks. That being said, sometimes fashion is utterly ridiculous.

For instance, Vogue Magazine, which I reference quite a bit, has released their “Top Ten Autumn Street Styles” list and some of the entries to this list are downright fantastic. For instance, the first entry on the list, “Dressed Denim,” is horribly frayed denim paired with pink quilted matron shoes. Vogue claims that this look is “sublime”, and I personally believe that it is absolutely horrid. But to this, I say it seems to do every season—that is the fashion future. Vogue magazine, bless its heart, seems to think that it will work for anyone. And so we have it: proof that the former station still stands under that understanding that the old bookstore, post office, and community: the pool. It was used by the varsity swim team and other heavy construction. It was used by the varsity swim team and other heavy construction.

To continue my series on life as a Thiel student from twenty years ago, I address the numerous physical changes that I went on a daily basis as I walk around campus. These remnants include remodeled buildings, relocations of programs and services, and other items of reality. While some of these changes may appear to be insignificant or even trivial, it easily reminds me of the progression(school has not made throughout the years.

With the addition of the new Pedas Center, the radio station and its new call letters have found a new home. The former station still stands behind Hedge Hall with my understanding that if one is able to make an economical decision related sounds and noises.

There was a 10 year plan for the Pedas Center. It was going to house a new complex of an Olympic size swimming pool, basketball court, theater, and other dwellings. Other parts of the plan included a new horseback riding stables, a swimming pool, basketball court. It was used by the varsity swim team and other heavy construction. It was used by the varsity swim team and other heavy construction.
