Witosky earns Professor of the Year

On Feb. 4, Thiel College officials reconococed the contributions of 15 faculty and staff members as part of the College’s celebration in the Lenthal Heritage Room of Howard Miller Studio. Founders’ Day has been celebrated annually since 1876 and serves as the official kick-off for the year-long observance of the 150th anniversary. To make it even more special, the college had 15 faculty and staff members to congratulation in various areas for their contributions to the Thiel College community.

The recipient of the Distinguished Professor of the Year was Professor of Business Administration, Accounting, and also the Dean of the College, Gary J. Wnecker of Chardon, OH.

Professor Wnecker is an active member of the symposiums of the International Academy for Research in Learning Disabilities (IARLD), a former graduate student, and as an adult, he was born in 1958. Professor Wnecker stated that the symposiums are important to him, as they allow for the dissemination of research and ideas on learning disabilities.

In addition to teaching, Professor Wnecker is also an active member of the Academy for Research in Learning Disabilities (IARLD), a former graduate student, and as an adult, he was born in 1958. Professor Wnecker stated that the symposiums are important to him, as they allow for the dissemination of research and ideas on learning disabilities.

The faculty and staff members were recognized for their contributions and achievements. The College wishes to express its gratitude and appreciation to all those who have made a significant impact on the College and its students.

New Thiel Forum features faculty and student presenters

by Tim Kromer 2018/03/15

On Feb. 18 at 4 p.m., the latest Thiel Forum was held in the lecture hall on the campus of Thiel College. Dr. Epley, Dr. Khalsa, and Elyse A. Magill presented on the topic of “The (Insane) Devouring of the Bible.” Dr. Epley offered a different perspective on the Bible, explaining that the Bible should be read as a whole, not as a collection of separate stories or teachings. Dr. Khalsa emphasized the importance of understanding the context of the Bible, while Elyse A. Magill discussed the role of the Bible in modern society and its relevance to contemporary issues.

Richard Elyse A. Magill believed the Holy Spirit is what guides individuals and shapes their understanding of the Bible. This belief was supported by the responses from the audience, who found the discussions thought-provoking and engaging. The discussion concluded with a Q&A session, where the audience had the opportunity to ask questions and engage in further conversation.

In addition to the discussions, the forum also included a work of art, a sculpture of a human figure, which represented the diversity and complexity of the human experience. The sculpture was created by local artist, Elyse A. Magill, and was displayed in the lecture hall during the forum.

The forum attracted a significant number of attendees, who were interested in exploring the topic of the Bible and its role in contemporary society. The forum was organized by the Academic Affairs Department of the College, and was open to the public.

Sigma Tau Delta inducts new members

by Tim Kromer 2018/03/15

On Feb. 21, students were inducted into the Alpha Iota Kappa chapter of Sigma Tau Delta in the Swellhorn-Green-Allen Room.

In addition to inducting, the society also invited new officers and unveiled the sculpture which will be displayed in the Alpha Iota Kappa chapter. The sculpture, which symbolizes the society’s values, was created by local artist, Elyse A. Magill, who showcased her work in the Alpha Iota Kappa chapter. The sculpture was displayed in the Swellhorn-Green-Allen Room, and was unveiled to the students and faculty present at the induction ceremony.

Professor Karen Shaffer, associate professor of English, spoke at the induction ceremony. Shaffer emphasized the importance of Sigma Tau Delta as a society that supports the academic growth of its members.

The induction ceremony also included a performance by the Academic Affairs Department of the College, which included a selection from the Swellhorn-Green-Allen Room.”

Along with faculty and students, the event featured a musical performance by the College’s Concert Choir, which entertained the attendees with a variety of classical and contemporary songs.

Sigma Tau Delta is a national honor society dedicated to promoting the development of students in the fields of English and related disciplines. The society seeks to provide opportunities for students to engage in academic activities, to foster a sense of community among its members, and to encourage the pursuit of excellence in their studies.

Pedas Fellowes organize presentation on race and race relations

by David Ede 2018/03/15

On behalf of the Pedas Fellows, a presentation was held in the Swellhorn-Green-Allen Room of the Swellhorn-Green-Allen Room in the Student Center. The presentation was organized by Pedas Fellowes, a group of students who are dedicated to promoting the development of their peers in the fields of English and related disciplines.

The presentation featured a discussion on the topic of “Race and Race Relations,” which was led by Dr. Karen Shaffer, associate professor of English. Shaffer discussed the importance of understanding the history and complexities of race and race relations in contemporary society.

The presentation was attended by a diverse group of students, faculty, and staff members, all of whom were interested in exploring the topic of race and race relations.

What do you read and how do you read it?

By David DeLeo, jdeleon@thiel.edu

I read things a lot. I love reading books, especially fiction. I also love reading technical books and computer science books. I use my Kindle almost every day. I try to read at least 10 minutes a day. I also enjoy reading on my phone. I carry a Kindle with me almost everywhere I go. I also enjoy reading things online, especially on social media.

I read a lot of different types of things. I read a lot of fiction books, but I also read a lot of non-fiction books. I read a lot of technical books, especially in the fields of computer science and mathematics. I also read a lot of news articles, especially on topics that I am interested in.

I read a lot of books, especially on topics that I am interested in. I also read a lot of news articles, especially on topics that I am interested in. I also read a lot of technical books, especially in the fields of computer science and mathematics. I also read a lot of news articles, especially on topics that I am interested in.
