Make a difference in someone's life! Prepare yourself for a career in the growing field of allied health.

If you are interested in a career in healthcare but are not quite sure where your talents will take you, Thiel's new Health Systems major may be ideal for you. This major will provide you with a broad foundation in biology, chemistry, psychology, and ethics to ready you to move to a degree in nursing, occupational or physical therapy or a physician's assistant graduate program.

Our Health System's major is overseen by the Biology, Neuroscience and Psychology departments in order to give you the broad perspective you need. Paired with our commitment to providing our students with a rigorous liberal arts education, this program is designed to see that you have the creativity, critical thinking and written communication skills necessary to succeed in this industry.

"The best way to find yourself is to lose yourself in service of others"

Mahatma Gandhi | Indian Activist

Wherever you decide to go in the healthcare field, the health systems major is an excellent first step.

College is a time for exploration, so if you are interested in the field of healthcare, but not certain which path is right for you, don't worry. Thiel's health systems major will give you both the broad foundation and the perspective you need to make your choice without forcing you to backtrack in your education once you decide where you are going. Plus our commitment to providing a liberal arts education means you'll have the critical thinking skills necessary to make a wise choice.

Here are just a few opportunities available after graduation:

- Enter graduate school to become a **Health Services Manager** – earn a median salary of **\$96,540**.*
- Move to a **BSN program** – seamlessly move into a program that will earn you a Bachelor of Science in nursing to earn a median salary of **\$79,000** working as a registered nurse.*
- Apply to graduate school to become a **Physician's Assistant** – earn a median salary of **\$101,480**.*
- Enter an **occupational therapy program** – earn a median salary of **\$83,741** helping people optimize their independence after an injury.*
- Enter a **physical therapy program** – earn a median salary of **\$84,020** helping people rehabilitate after an injury.*

Study health systems at Thiel College and you will:

- Complete the core requirements for many health-related graduate and BSN programs.
- Work closely with faculty in the Biology, Neuroscience and Psychology departments thanks to our 11:1 student-teacher ratio.
- Receive guidance and support from a variety of perspectives, and get to choose an advisor from the field closest to your interest.
- Enjoy high-impact mentoring through the Health Professions Institute.
Learn more at: www.thiel.edu/academics/health-professions-institute
- Get help applying for dozens of internships across the country. 100% of our students complete an internship or practicum before graduation.

99%
of Thiel students
receive tuition assistance.

You can afford to attend Thiel College. We have given out over \$100 million in scholarships since 2009. Contact an admissions counselor to learn about scholarship opportunities.
