EDUCATION DEPARTMENT
STUDENT LEARNING OUTCOMES ASSESSMENT

Due May 15, 2015

The Education Department reviewed the summary report from the past year and specifically revisited the Activity, Reflection and Action Plan sections of the report. Department SLOs continue to be reflected in the required competencies from the Pennsylvania Department of Education as tested via the PAPA, CORE, PECT and PRAXIS state required assessments. Our test results are exemplary and are included within this report.

Students continue to create three ring binder portfolios based on the research of Charlotte Danielson’s *Enhancing Professional Practice A Framework for Teaching*. This is the same framework used by school districts to evaluate their own teachers. Additionally, all students are now required to create a professional wikispace where documentation is uploaded to show evidence for meeting departmental SLOs and PDE competencies and for use in gaining employment.

Last year’s report mentioned the use of PD360 videos for use in demonstrating best practices. However this excellent educational resource was cut from the budget.

In the following pages, evidence of departmental collection, review and analysis of student learning outcomes is provided. This includes the results of the PAPA, CORE, PECT and PRAXIS state required assessments, sample student teacher evaluations, a sample portfolio table of contents and a list of student created wikispaces. Additionally, a copy of the federally mandated Title II Higher Education Act Complete Report Card is included.

The Education Department takes assessment very seriously and is held accountable to the external agency of the Pennsylvania Department of Education. We will continue to use the above mentioned tools to collect assessment data and to employ a culture of data informed decision making.

Pennsylvania Statewide Evaluation Form for Student Professional Knowledge and Practice

Student/Candidate's Last Name
First
Middle
Grade Level

Social Security Number

Subject(s) Taught

This form is to serve as a permanent record of a student teacher/candidate's professional performance evaluation during a specific time period, based on specific criteria. This form must be used at least twice during the 12-week (minimum) student teaching experience.

PERFORMANCE EVALUATION

Directions: Examine all sources of evidence provided by the student teacher/candidate and bear in mind the aspects of teaching for each of the four categories used in this form. Check the appropriate aspects of student teaching, and indicate the sources of evidence used to determine the evaluation of the results in each category. Assign an evaluation for each of the four categories and then assign an overall evaluation of performance. Sign the form and gain the signature of the student teacher.

Category I: Planning and Preparation — Student teacher/candidate demonstrates thorough knowledge of content and pedagogical skills in planning and preparation. Student teacher makes plans and sets goals based on the content to be taught/learned, knowledge of assigned students, and the instructional context.

Alignment: 354.33. (I)/(II), (B), (C), (G), (H)

Student Teacher/Candidate's performance appropriately demonstrates:
- Knowledge of content
- Knowledge of pedagogy
- Knowledge of Pennsylvania's K-12 Academic Standards
- Knowledge of students and how to use this knowledge to impart instruction
- Use of resources, materials, or technology available through the school or district
- Instructional goals that show a recognizable sequence with adaptations for individual student needs
- Assessments of student learning aligned to the instructional goals and adapted as required for student needs
- Use of educational psychological principles/theories in the construction of lesson plans and setting instructional goals

Category II: Classroom Environment — Student teacher/candidate establishes and maintains a purposeful and equitable environment for learning, in which students feel safe, valued, and respected, by instituting routines and setting clear expectations for student behavior.
Alignment: 354.33(1)(D)(E)(B)

Student Teacher/Candidate’s performance appropriately demonstrates:

- Expectations for student achievement with value placed on the quality of student work
- Attention to equitable learning opportunities for students
- Appropriate interactions between teacher and students and among students
- Effective classroom routines and procedures resulting in little or no loss of instructional time
- Clear standards of conduct and effective management of student behavior
- Appropriate attention given to safety in the classroom to the extent that it is under the control of the student teacher
- Ability to establish and maintain rapport with students

Category III — Instructional Delivery - Student teacher/candidate, through knowledge of content, pedagogy and skill in delivering instruction, engages students in learning by using a variety of instructional strategies.

Student Teacher/candidate’s performance appropriately demonstrates:

- Use of knowledge of content and pedagogical theory through his/her instructional delivery
- Instructional goals reflecting Pennsylvania K-12 standards
- Communication of procedures and clear expectations of content
- Use of instructional goals that show a recognizable sequence, clear student expectations, and adaptations for individual student needs
- Use of questioning and discussion strategies that encourage many students to participate
- Engagement of students in learning and adequate pacing of instruction
- Feedback to students on their learning
- Use of informal and formal assessments to meet learning goals and to monitor student learning
- Flexibility and responsiveness in meeting the learning needs of students
- Integration of disciplines within the educational curriculum

FIELD EXPERIENCE REQUIREMENTS FOR EDUC 220 ECE 420

Dr. Hazlett

Reference the "Handbook for Field Experiences – Thiel College Education Department"

You are to complete 5 hours of field experiences during this semester. A signed and completed field experience log must be submitted when your field experience has been completed.

Required Activities:

Maintain a typewritten log of your field experience hours noting the dates and times of your visits to include your personal reflections. This is to be submitted when your field experience is completed.

Interview a technology coordinator, technology instructor or Classroom for the Future Coach. Use this contact to plan 5 meaningful hours of classroom observation of teachers using technology to increase student learning.

Additional Guidelines:

• Transportation to and from the school is the student’s responsibility. Also, all clearances and TB tests need to be up-to-date in order for students to go into the schools. Copies of these documents will need to be taken to the school on your first day of observation.

• Students are to maintain confidentiality in all field experience opportunities. Student names and classroom happenings should not be discussed with people that are not directly involved in the classroom. Therefore, any sharing of information within the Thiel classroom setting should not contain names or any other identifying information.

• If you will be unable to make a scheduled session, it is your responsibility to communicate that with the professor and the teacher in a timely manner. (Not 15 minutes before you are to be there!)

• Dress, communications and actions will be professional at all times! You are a representative of Thiel College and its Education Department – make sure not to embarrass anyone! Conduct yourself as a teacher!

What is the minimum GPA required for admission into the program?

What was the median GPA of individuals accepted into the program in academic year 2013-14?

What is the minimum GPA required for completing the program?

What was the median GPA of individuals completing the program in academic year 2013-14?

Please provide any additional comments about the information provided above:

Section I.c Enrollment

Provide the number of students in the teacher preparation program in the following categories. Note that you must report on the number of students by ethnicity and race separately. Individuals who are non-Hispanic/Latino will be reported in one of the race categories. Also note that individuals can belong to one or more racial groups, so the sum of the members of each racial category may not necessarily add up to the total number of students enrolled.

For the purpose of Title II reporting, an enrolled student is defined as a student who has been admitted to a teacher preparation program, but who has not completed the program during the academic year being reported. An individual who completed the program during the academic year being reported is counted as a program completer and not an enrolled student.

Additional guidance on reporting race and ethnicity data:

- Total number of students enrolled in 2013-14: 12
- Unduplicated number of males enrolled in 2013-14: 4
- Unduplicated number of females enrolled in 2013-14: 8

Section I.d Supervised Clinical Experience

Provide the following information about supervised clinical experience in 2013-14:

| Average number of clock hours of supervised clinical experience required prior to student teaching | 190 |
| Average number of clock hours required for student teaching | 525 |
| Average number of clock hours required for mentoring/induction support | 0 |
| Number of full-time equivalent faculty supervising clinical experience during this academic year | 2 |
| Number of adjunct faculty supervising clinical experience during this academic year | 58 |
| Number of students in supervised clinical experience during this academic year (K-12 and PreK-12 staff) | 49 |

Please provide any additional information above or descriptions of the supervised clinical experiences:

Did your program prepare teachers in mathematics in 2013-14?

Yes

How many prospective teachers did your program plan to add in mathematics in 2013-14?

2

Did your program meet the goal for prospective teachers set in mathematics in 2013-14?

No

Description of strategies used to achieve goal, if applicable:

n/a

Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

Each semester, the Education Department Chair speaks to all Math majors in the Math Department encouraging them to consider adding education courses to their course of study in order to obtain their PA Secondary Math teaching certification.

Provide any additional comments, exceptions and explanations below:

Goal is appropriate based on the interests of the incoming freshmen and inquiry data.

Section II Assurances

Please certify that your institution is in compliance with the following assurances. (§305(a)(1)(A)(III), §306(b)) Note: Be prepared to provide documentation and evidence for your responses, when requested, to support the following assurances.

Preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

Yes

Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

Yes

Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

Yes

Prospective general education teachers are prepared to provide instruction to students with disabilities.

Yes

Prospective general education teachers are prepared to provide instruction to limited English proficient students.

Yes

Prospective general education teachers are prepared to provide instruction to students from low-income families.

Yes

Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

Yes

Describe your institution’s most successful strategies in meeting the assurances listed above:

Several education courses provide training in the above stated areas. Students are also required to be out in the field for at least 190 hours prior to student teaching. School has implemented the mandated 9 and 3 courses. The 9 credits required for special education training were implemented for all Education students during the 2010-2011 school year. The 3 credits for training in providing instruction to limited English proficient students was implemented during the Spring 2013 semester.

Section V Use of Technology

Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request.

Does your program prepare teachers to:

- Integrate technology effectively into curricula and instruction
  - Yes
- Use technology effectively to collect data to improve teaching and learning
  - Yes
- Use technology effectively to manage data to improve teaching and learning
  - Yes
- Use technology effectively to analyze data to improve teaching and learning
  - Yes

Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

Technology is incorporated into many courses of the program. The ISTE and NETS-T standards are incorporated into the technology courses. Universal design for learning is incorporated throughout the coursework at Title. Students are required to use technology within their lesson planning and use data to drive their decision making. Assessment scores are used as well to drive lesson and unit planning. By the end of their coursework students will be able to: Be familiar with the ISTE and NETS-T standards, demonstrate an understanding of the social, ethical, legal and human issues. In dealing with technology. Students will prepare and present an e-portfolio - Students will prepare and teach standards-based lessons using technology - Implement Kidspiration and Inspiration into their lessons - Become familiar with technology products used by local regional school districts (such as the Trekker, Smart Board and Study Island) - Become familiar with PA Intermediate Unit concepts and it's various support features including assistive technology and principles of universal design for learning.

Section VI Teacher Training

Provide the following information about your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request.

Does your program prepare general education teachers to:

- Teach students with disabilities effectively
  - Yes
- Participate as a member of Individualized Education Program teams
  - Yes
Yes

Provide a description of the evidence your program uses to show that it prepares general education teachers to teach students with disabilities effectively, including training related to participation as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the Individuals with Disabilities Education Act, and to effectively teach students who are limited English proficient. Include planning activities and a timeline if any of the three elements listed above are not currently in place.

The education department at Thiel College has created a special education program which has been approved by PDE, and complies with all of their mandates and competencies. The special education courses students must take teach them how to effectively educate students with disabilities, how to be a productive member of the IEP team, and how to meet the needs of students who are English Language Learners. All courses contain practical measures which are linked to real-world examples. All professors teaching these courses have or currently do teach in the special education setting. In addition, students are required to complete over 190 hours of experience out in the school-setting prior to student teaching. This “clinical experience” allows a student to see first-hand how to instruct and meet the needs of all learners. By aligning the coursework with practical experience, students will be prepared to properly educate students of all ability-levels.
