## Kappa Mu Epsilon

Where

you share your love of  
music with the world

The national honor society for  
mathematics

Ever wonder what influence mathematics had on the development of civilization? Or wondered at its demand for logical and powerful thought? Are you looking for others who are as enthralled with mathematics as you are?

Kappa Mu Epsilon is a specialized honor society that promotes the interest of mathematics among undergraduate students. Each chapter selects its members from among students of mathematics and other closely related fields who have maintained standards of scholarship, have professional merit, and have attained academic distinction.
