

We would like to invite you to join a special project that is near and dear to our hearts as we partner with the Butler Radio Network and Schneider's One Hour Heating and Air Conditioning, to ***Hang Tough: Stockings Stuffed with Love & Care!*** We have been doing this project for several years and would like to continue giving local cancer patients a special gift stuffed with love and care. Our project can only be successful with donations from individuals and companies like you.

Stockings are given to patients receiving chemo/radiation treatments at our local cancer centers: UPMC Hillman Cancer Center – Farrell, Sharon Regional Cancer Care Center, and UPMC Hillman Cancer Center – Greenville. These treatments sometimes take hours and goodies in their stocking will hopefully help pass time and put a smile on their face. By participating in this stocking project, you will put a new understanding of extending love and joy to others, even total strangers!

The goal of our project is to fill stockings with special items that can be gifted to either a male or a female cancer patient. Attached is a list of some suggested items that you can fit into your stocking, but please remember to be unique and creative!

If you, your family members, friends, office staff or someone you know would like to participate in this project, please share this information *and hang tough!* We want to thank you in advance for allowing us to share this project with you and making this a great success. You will definitely put a smile on someone's face and in their heart, knowing someone truly cares. Feel free to place an encouraging word, note of hope, or a holiday greeting inside of your stocking.

The timeline for collecting stockings will extend from November 4th through December 4th. Filled stockings can be dropped off at one of our sponsors' place of business by December 4, 2019:
