

# Thiel College

## Endymion

Where

you record Thiel's history

Create our college yearbook and preserve your story.

Each year Thiel's students create a new chapter in the story of our college when they publish Endymion, our college yearbook.

Endymion is completely student run and welcomes all majors. Join the staff and you'll gain or enhance your photography skills, your design and layout skills and become familiar with editing software.

You'll also get a front row seat at the most important events of the college year ... and make lifelong friends recording those events.
