

Actuarial Science

Unlock Your Future in Actuarial Science

Analyze Risk. Solve Problems. Shape Financial Security

Did You Know?

Actuaries are some of the most in-demand professionals in the business and financial world. By combining mathematics, statistics, and data analysis, actuaries help organizations manage risk and plan for the future. At Thiel, you'll build strong analytical skills and gain personalized support to turn your talent for numbers into a stable, high-impact career.

Job Outlook

Employment of actuaries is projected to grow much faster than average over the next decade, driven by increased demand for risk analysis and financial forecasting (*U.S. Bureau of Labor Statistics*).

The median annual salary for actuaries exceeds **\$110,000**, making it one of the most rewarding math-based careers.

Career Possibilities

Students graduating with a degree in Actuarial Science can work in various industries, including;

- Insurance
- Financial services
- Government
- Investment banking
- Technology
- Healthcare
- Consulting firms
- Energy & Utilities
- Transportation

Specialized Roles

This degree also opens doors to specialized roles like insurance underwriter, pension or financial analyst or enterprise risk manager. You might be interested in some of the following courses:

- Probability and Statistics
- Economics and Finance
- Business Analytics
- Accounting
- Interest and Life Annuities
- Data Management
- Derivatives Markets

What makes Thiel's program different?

Personalized Preparation for a High-Demand Career

Thiel's actuarial science program combines rigorous mathematics with real-world application and individualized mentoring. You'll learn in small classes where faculty know you by name, guide you toward actuarial exams, and help you connect coursework to career opportunities. With strong outcomes, hands-on learning, and a supportive campus community, Thiel prepares you for success from day one.
